

KDES instructor Anne Ciambone looks on as star student Nicole Patterson demonstrates some of the computer language skills she acquired during the summer computer camp.

Computer camp may become annual event at KDES

by Mary Johnstone

The first summer computer camp for hearing impaired students in the Washington, D.C. area was concluded last week at KDES. Directed by Gerald Pollard, a computer science instructor at the Texas School for the Deaf in Austin, the program combined daily computer language classes with recreational activities. Students between ages 10 and 14 participated in the program.

Classes included instruction in the basic care of computer hardware and software, keyboarding skills and the LOGO language. Each student was required to develop a final program and present it to the class.

"The advantage of the computer camp concept," said Dr. Pollard, "is that the computer language learning takes place in an environment very conducive to acquiring self-confidence and improving social interaction skills."

LOGO was chosen as the computer language, said Dr. Pollard, because it offers a good introduction to computer concepts and serves as a sound basis for learning other computer languages.

Janice Welborn, principal of KDES, and Dr. Pollard met at a national conference on the use of microcomputers in the education of hearing impaired students held at KDES in April.

Dr. Pollard's 20 years of experience in education of hearing impaired youths, particularly those spent in teaching computer languages, prompted Welborn to invite him to supervise the summer program.

Margaret Hallau, director of curriculum and outreach for Pre-College Programs, assisted Welborn in applying for and securing a Presidential Award to help fund the computer camp.

A Computer Fair marked the closing of the 4-week program. Cash prizes for

programming design and presentation were awarded to the following participants: Nicole Patterson, 1st place; Michael Castaldi, 2nd place; Hilda Johnson, 3rd place; and Joey Bader, 4th place.

KDES math instructors Anne Sullivan and Margaret Simpson, both of whom worked with Dr. Pollard in conducting the program, picked up skills and ex-

Southeast regional center to open this fall in St. Augustine, Florida

President Jerry C. Lee announced recently that the College will open a fourth regional center at Flagler College in St. Augustine, FL this fall.

The center will tie the resources of Gallaudet to those of Flagler and, in cooperation with other institutions in the Southeast, provide greater educational opportunities for hearing impaired people, their families and the professionals who serve them.

Dr. Lee explained that Gallaudet is receiving increasing requests for services from people in the southeastern U.S., attributable in part to an ongoing population shift. According to the Bureau of the Census more than 91 percent of the population growth in the U.S. from

1980 to 1984 occurred in the South and West. Demographers expect that shift to continue, at a slower pace, through the rest of the century.

"Flagler's fine program preparing teachers to teach deaf students, its proximity to the Florida School for the Deaf and Blind in St. Augustine and its excellent cooperative relationship with that school were all factors in the decision to name Flagler our southeast regional center," said Dr. Lee.

"The regional center concept has proved to be a cost-effective way for deafness-related professionals to procure training from Gallaudet without having to incur the expense of traveling to and lodging in Washington, D.C.," Dr. Lee continued. "It is also an excellent way of assisting hearing people and those who work with them to take better advantage of already excellent programs within their own regions."

Flagler is the first 4-year college to become a Gallaudet regional center. The three existing regional centers (formerly called extension centers) are at Johnson County Community College in Overland Park, Kansas; Northern Essex Community College in Haverhill, Massachusetts; and Ohlone College in Fremont, California. In fiscal 1984 these three regional centers served approximately 7,500 individuals.

According to Gallaudet's Center for Assessment and Demographic Studies, Florida has the largest population of hearing impaired individuals of all southern states, and approximately 2.6 million hearing impaired people live in the Southeast.

Commenting on Flagler's selection as the southeastern regional center, Flagler College President William L. Proctor said, "We think we've established ourselves at Flagler in the preparation of teachers of the deaf and in providing services to the deaf. But certainly this affiliation with Gallaudet, which is the premier institution in the education of deaf students, will greatly extend the services Flagler can render."

Flagler College, founded in 1968, is a charter member of the Northeast Florida Consortium for the Deaf and Hearing Impaired, and it is certified by the Council for the Education of the Deaf.

The Gallaudet administrator for the regional center at Flagler is Dr. Roslyn Rosen, dean of the College for Continuing Education. Flagler College is now conducting a national search for a director of the new center, which is expected to open in October.

Football season around the corner

More than 80 students are expected to begin varsity football practice Aug. 15 in preparation for the College's 10-game season that starts Sept. 7. Half of the games will be played at home, beginning with Stevens State Tech on Sept. 21 and featuring Tennessee Wesleyan in the traditional homecoming game on Oct. 26.

"We have a fine group of men who have been showing a lot of determination to play good, hard, competitive football," said Bob Westermann, the team's new full-time head coach. Since Westermann was appointed in January, he and his eight assistant coaches have kept busy analyzing personnel, overseeing weight training during the spring semester, planning strategy and arranging the schedule of games.

The College is cutting back on the number of club and junior college teams it plays while adding more games against NCAA Division III colleges, of which Gallaudet is a member. The last five games of the season will be played against Division III opponents.

All home games will be played on Saturday afternoons. Three of the five away games will be played under the lights, including a Friday night, Oct. 11, game at St. Peter's College in Jersey City, NJ.

perience that they look forward to applying in their classes this fall.

"Teachers and students learning together in programs such as this is exciting," said Dr. Pollard. When asked about the possibility of future computer camps at KDES, he said, "Based on the success of this summer's program, I certainly hope that they will become an annual event."

Joe Fritsch of the Physical Education Department will be the contact for *On the Green* football coverage this fall. Pattie Cinelli, the College's new director of sports information, is the contact for off-campus media.

1985 Bison Football

Home games in boldface

Sept. 7	at Shenandoah	7:00 p.m.
Sept. 14	at Knoxville College	1:30 p.m.
Sept. 21	Stevens State Tech	1:30 p.m.
Sept. 28	University of North Carolina Club	1:30 p.m.
Oct. 5	at Anne Arundel CC	7:00 p.m.
Oct. 11	at St. Peter's College	7:30 p.m.

Employee sign class registration next week

Sign Language Instruction for Gallaudet Employees (SLIGE) classes will begin the week of Sept. 9. Registration for these classes will take place Wednesday and Thursday Aug. 21-22 from 9 a.m. to noon in the Kendall Hall lobby. Two sections are planned for each of four classes: Beginning I, Beginning II, Intermediate I and Fingertalk (for anyone who wants to improve fingerspelling skills).

Employees interested in higher level classes should get information on non-degree credit courses from the Department of Sign Communication and register before Aug. 19. All courses are free to full-time employees. For more information call Lynn Jacobowitz, x5630.

Sponsored R&D

Provided below are application deadlines of selected federal programs that offer potential grant or contract opportunities for faculty, staff and graduate students. More details on these and other programs of interest can be obtained from the Office of Sponsored Programs, at x5034 (V/TDD).

Deadline	Program
9/3/85	NSF: Engineering Research Centers
9/6/85	ED/OSERS: Training Personnel for Education of the Handicapped
9/15/85	Dyslexia Research
9/15/85	NEH: Research Conferences in the Humanities
9/20/85	NEH: Humanities Programs for Adults
10/1/85	NEH: Undergraduate Programs in the Humanities
10/1/85	NEH: From Presses for Publications in the Humanities
10/1/85	NEH: Humanities Programs for Non-Traditional Students
10/15/85	USIA: Fulbright Teacher Exchange
11/1/85	CIES: Fulbright Scholar Awards
11/1/85	NIMH: Research on Methods for Studying Mental Health Services Systems

Gallaudet College is an equal opportunity employer/education institution. Programs and services offered by Gallaudet College receive substantial financial support from the U.S. Department of Education.

The Gallaudet contingent at the XV World Games for the Deaf in Los Angeles July 10-20 included this intrepid TV crew (from left to right): Marybeth Breslin, Rick Fansher, Mary Lou Novitsky, Mike Ginter, Ron Reed and Ves Bennett. In addition to filming the games for the "Deaf Mosaic" TV series, they handled other College-related assignments in the LA area. They are shown here in various stages of signing "olympics."

Announcements

Faculty and staff are invited to enroll in a new graduate course, "Trends in Special Education and Rehabilitation," offered by the Department of Counseling. The course, to be conducted on Wednesdays from 4 to 6 p.m., is designed specifically to update Gallaudet professionals about current public policy and legislative issues. If you are interested, please contact the Office of Admissions in HMB or call x5119.

Motor vehicle registration will begin Sept. 9 and end Sept. 30. More information, and some gentle reminders, will appear in upcoming OTGs. One reminder for now: Pay those parking and traffic tickets or you won't be permitted to register your vehicle.

Jacqueline Mendelsohn, executive director of the American Society for Deaf

Children (formerly the International Association of Parents of the Deaf), has announced that she will leave that position on Sept. 30. She plans to open a private practice as a counselor and consultant.

Microcomputer users: Some new items have been added to Central Stores including Verbatim double-sided double-density diskettes, Microline 93 printer ribbons for the Okidata printer and "clean-cut" CompuPaper. For information on price/quantities and how to order, contact Mike Lockhart, x5160 (V/TDD).

Nationwide Flashing Signal Systems, Inc. will hold an all-day demonstration of TDDs, flashing signals for clocks and doorbells, and baby cry and smoke detector alarms Aug. 15 on the Northwest Campus.

Jobs Available

Some of the advertised staff positions may already be filled. For updated information, call the JOB RECORDING in the Personnel Office, x5514 or x5520 TDD.

Among Ourselves

Matt Searls is the new assistant dean for student affairs in the School of Preparatory Studies. He previously served as director of academic development at the school. Searls hopes to complete course work this fall as a doctoral student at American University in the area of counseling and student development with a secondary emphasis in educational administration.

John Raymer, director of student special services, last month assumed the additional responsibilities of director of international student services under Dean of Student Affairs Allen Sussman. If you have concerns regarding services for international students or deaf students with additional disabilities, please contact Raymer in Ely Center, room 153, x5405.

Sandi La Rue, developmental counselor in the School of Preparatory Studies, delivered the commencement address to June graduates of St. Mary's School for the Deaf in Buffalo, NY. "We are proud of your accomplishments," Sister Nora Letourneau, superintendent of the school, said to La Rue while introducing her to the class of 1985. La Rue attended St. Mary's.

Bill Isham, acting coordinator of Interpreting Services, presented a paper, "The Role of Message Analysis in Interpretation," at the national convention of the Registry of Interpreters for the Deaf in San Diego last month.

Gail Levo and Wayne Davis of the Physical Plant Department attended the 72nd annual meeting of the Association of Physical Plant Administrators in San Diego last month. Levo participated in a panel discussion on the problems and possibilities of computerizing physical plants.
